EDUCATION

BS, Software Engineering

Usman Institute Of Technology University Karachi (UITU)

CGPA 3.4

WORK EXPERIENCE

JTech Solutions (Remote)

Remote web developer at Biznussoft Software House, where I focus on creating responsive and user-friendly web applications. Utilizing technologies like HTML, CSS, JavaScript, ReactJS, and Bootstrap, I collaborate with global teams to deliver projects that meet client specifications. My remote work experience has strengthened my ability to communicate effectively, manage time efficiently, and deliver high-quality solutions in a virtual environment.

VativeApps (Intern)

Web developer intern at VativeApps Software House, specializing in HTML, CSS, JavaScript, ReactJS, and Bootstrap. I collaborate with cross-functional teams to design and implement scalable, responsive web applications. My expertise in front-end technologies ensures the delivery of high-quality code and enhanced user experiences, contributing to the creation of innovative digital products.

Fiverr

Freelance web developer on Fiverr with a proven track record of delivering high-quality, client-focused websites. Expertise in front-end and back-end development, with a strong emphasis on responsive design and seamless user experiences. Consistently praised for efficient project management and excellent client communication.

Upwork

Experienced web developer on Upwork, specializing in creating dynamic, user-centric websites. I've successfully completed diverse projects, ranging from custom web design to full-stack development, consistently exceeding client expectations. Known for my strong technical skills, attention to detail, and ability to deliver projects on time, I've built a reputation for quality work and professional communication.
